

BORA Workhorse X™

Quick setup is faster than conventional sawhorses

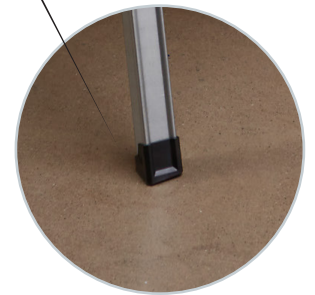

Use the 2x material supports to create a temporary worktable

Predrilled top allows 2x material to be screwed in as sacrificial top

Fully enclosed feet prevent the sawhorse from sinking into the soft ground

The BORA Workhorse X is a heavy-duty sawhorse that can handle tough tasks with ease. Its pro-level weight capacity and rock-solid stability make it a reliable choice for DIY or professional projects. Its legs are easy to set up and retract, and the steel construction is durable and built to last, making the BORA Workhorse X the perfect choice for every jobsite.
